

EDUCATION

BTech - Computer Science and Artificial Intelligence	Plaksha University, Mohali	2023-Present
12th - Karnataka Board	St. Joseph's Pre University College, Bengaluru	2022
10th - CBSE Board	Vidya Vihar Residential School, Purnea	2020

EXPERIENCE

Artificial Intelligence Intern upliance.ai , Bengaluru	May 2024 – Jul 2024
- Developed automation scripts to verify cloud data synchronization, reducing manual checks and improving reliability. - Integrated voice models into Android app to enable voice-controlled actions. - Deployed PostHog locally to visualize analytics from ClickHouse, enabling internal product telemetry. - Integrated Firebase notifications to alert users when app actions completed.	
Generalist Intern upliance.ai , Bengaluru	Feb 2023 – Aug 2023
- Developed a recipe app using image-based ingredient detection to recommend relevant dishes. - Configured website analytics tools (e.g., Google Analytics) and generated marketing performance reports to guide strategy. - Built a system to log, manage, and resolve customer queries, streamlining support workflows. - Created an internal dashboard for the manufacturing team to log and track quality tests and hardware checks.	

PROJECTS

E-Yantra International Robotics Competition 2 nd Stage	Aug 2024 - Dec 2024
- Implemented a RISC-V CPU in Verilog as part of robotics hardware design tasks. - Designed and integrated a UART module for serial communication. - Developed and tested dynamic frequency scaling to optimize CPU performance. - Collaborated in a team to debug and validate hardware modules on FPGA boards.	
Bridge Inter University Hackathon Winner	Nov 2024
- Built a platform to match AI data labeling tasks with women seeking flexible remote work. - Completed the project end-to-end within 12 hours as a two-member team during the hackathon. - Won the Grand Challenges track, recognized for innovation and societal impact.	
20 Questions Inter University Game Development Runners Up	Mar 2024
- Built a 20-questions-style game where AI guesses celebrities through user interactions. - Powered by GPT-API with a Flask backend. - Presented and showcased at a college tech event to a live audience.	

POSITIONS OF RESPONSIBILITY

Member Disciplinary Committee	Apr 2025 - Present
- Represented student interests as an active member of the college disciplinary committee. - Ensured fair and balanced proceedings during disciplinary hearings. - Facilitated communication between students and the administration on disciplinary matters.	
Member LEAP AI Club	Aug 2024 - Jan 2025
- Organized and hosted an AI-themed quiz as Quizmaster, engaging over 50 participants. - Showcased the club's initiatives at a college tech event to promote student participation. - Led discussions on the latest AI developments during regular club meetings.	

SKILLS

- Programming Languages:** Python, C/C++, HTML/CSS
- Tools and Tech:** Postman, Docker, Git, Firebase, Hasura, Linux, Amazon EC2
- Interests:** Financial market analysis, emerging tech research, logic puzzles, chess, poker

ACHIEVEMENTS

Winner, Inter-University Codebreakers Competition.	Nov 2024
Winner, Intra-University Capture the Flag (CTF).	Nov 2023
4th Place, Intra-University Stock Trading Simulation.	Mar 2024
Awarded <i>Spirit of Plaksha</i> — college honor for excellence in values and impact.	2024
